ALL SORTS.

The weather is very warm. Plenty of doves along the Carson river for sportsmen.

Arthur Morris, the Baron Munchausen of Empire, was in the city yesterday.

The shutting down of the Combination Shaft is looked upon as a bad break in Virginia.

Oliver Roberts is packing the Bellevue with guests this Summer and his wife is making it pleasant for the ladies.

The members of the Literary and Debating societies are urgently requested to meet at the School House at 1 P. M. today.

We wish to acknowledge the receipt of a copy of the register of the University of Nevada, sent to us by the president of the University.

Yesterday the Board of Pardons favorably considered the cases of Annie Peterson (colored) in for arson, Ed Irwin, burglary, and M. Gorgis, robbery.

Dr. McClary's offices at the Arlington are besieged from morning till night with people afflicted with grim visaged disease and many remarkable cures are reported.

Last evening a difficulty took place between Henry Rosenbrock and William Pickler. Rosenbrock was hit over the head with a beer glass. Pickler was arrested.

Newspaper thieves have been getting their work in pretty lively lately, and while none of them are subscribers to the paper, they will be to the county if such petty larceny does not stop.

There is a boy in Reno whose hair always curls a day or two before the arrival of a storm. When his barometric locks begin to kink the people in his neighborhood prepare for rain.

George Barnes, a very competent piano tuner, has located in the city, and can be found at Judge Hawthorne's. He charges about half what Carson people have been paying perapetetic tuners.

The children along the railroad seem to have adopted Deacon Gale as their special favorite. If you notice the Deacon's coat pockets bulging out it is a sure sign that they contain some candy or fruit for his pets.

Commissioner Chas. Bray Injured.

Yesterday Commissioner Bray had an accident with a team of spirited horses near Cradlebaugh's Bridge, and he was hit with a wagon tongue with such force that for a while it was thought that his ribs were broken. Fred Dangberg brought him into Carson and Dr. Fox in making an examination found that no bones were broken.

A Promising Young Man.

Sunday evening while out for a stroll on one of our residence streets, our attention was attracted by loud and vulgar talk mingled with the soft pleading voice of a lady, which was enough to bring the most hardened to terms. Approaching the parties, we found to our amazement, it was a mother and son. The young man was under the influence of liquor, and the mother was trying to get him to enter the house and not return to town. For her pleadings and 20 years of kindness she received curses and abuse from one whom she loves more than her life. It is safe to predict what this young man's end will be. —Advocate.

Nevada's Wonderful Fruit Crop.

Enormous quantities of gooseberries, and red, white and black currants are brought here daily from Reno and Truckee Meadows by McGurn's teams. They are not only superior to the California article, but are fresh from the bushes, and on account of the immense crop are almost given —Enterprise.

The berry crop on the ranches surrounding Carson is magnificent this year, and if the weight of apples don't break the trees down we will have apples for the State.

A FATAL ACCIDENT.

A Train Ditched at the Lake and Three Chinamen Killed.

At about 6 o'clock yesterday morning the wood train which plies between the Summit and Glenbrook on the Lake Valley Narrow Gauge was ditched near Bijou. Three Chinamen were killed outright and two men seriously injured. The train was rounding the curve beyond the tunnel, when a calf suddenly plunged down the embankment on the track directly ahead of the engine. It was too late even to slow up the train. The calf was caught under the wheels and the engine, jumping the track, went down the bank, taking the wood cars with it. The cars fell on three Chinamen, who were aboard, and they were killed almost instantly. One was badly mangled. Another was injured so badly that he is not expected to live, Fred Johnson, the engineer, stuck to his engine as it went down the bank, and was badly crushed. Charles Forbes, a clerk in the company's employ, was picked up from the wreck covered with cuts and bruises. His collar bone is broken. The news of the accident soon spread about the camps and scores of men soon appeared upon the scene.

Word was at once sent to Dr. Brigham, and the Meteor, under full head of steam, went over to Tallac and brought him to Glenbrook, where the wounded men had been taken. The Chinese took charge of their dead. The place where the accident occurred was the scene of great excitement all day. It is the most serious accident that ever happened there, but no one is blamed. It is regarded as one of those peculiar things that no one can foresee or avoid.

Forbes is a brother of Senator Forbes of Hawthorne.

Baseball at Steamboat.

The Committee of Arrangements in charge of the sports at Steamboat Springs, have arranged for a series of five games of baseball, for a purse of \$250, to be paid at the rate of \$50 each game to the winning team. Each game is to be played out, and the club having the most tallies at the end of the series to receive the championship pennant. The Comstocks and Emporiums are the competing clubs, and the initial game will be played at Steamboat Sunday, July 17th. Following are the men and their positions:

Wants an American Party.

Oliver Roberts, of the Arlington House has long been a strenuous advocate of the formation of an American party.

A careful inventory of the help he hires at the Arlington in Carson, and the Bellevue at Tahoe, reveals the following nationalities:

Scott.	1
Americans	3 men and 2 boys

WATER FOR THE HOME.

Messrs. Stevenson and Pratt Did a Good Job.

The new water works at the Orphans' Home are now in running order, and furnishes an inexhaustible supply of pure water for irrigation and domestic use.

They bored a six-inch well 130 feet and struck a flow of water that comes within three feet of the surface.

The water is pumped into a 10,000-gallon tank forty feet high, and after the water is lowered by the pump to 13 feet below the surface it remains at that point and no amount of pumping can lower it an inch.

It fills the 10,000 tank daily, while all the water necessary is being used on the grounds.

The work was done better than the contract called for, the pipe in the well costing twice as much as the price named in the specifications.

The water pumped in the tank daily is enough to keep two acres of ground under complete cultivation.

The motive power is a 16-foot Cyclone windmill.

Here is a hint to people who desire to start small farms.

Empire Notes.

All the mills are running full blast.

Over one thousand cords of wood are being taken out daily.

Longabaugh and Spooner's wood drive contains 21,000 cords, to be distributed at Empire, the Eureka and Morgan mills. Over one hundred men and the same number of horses are engaged in the work.

No idle men in this camp.

Committed for Contempt.
